____ State Accompanies _____ Limited On-site NFA
____ FIT _____ State Involvement

Priority Justification and State Comments Regarding:
X PA _____ SI _____ Follow-up SI _____ RPS _____ HRS

The Anderson STP produces sludge with an elevated level of heavy metals due to discharges from Guide, and Delco industries in Anderson. The level of metals does not, however, exceed the E.P. Toxicity level. All of the sludge is disposed of at landfills, currently the Madison County Landfill. According to the Madison County Health Department and the Anderson STP, no sludge has been disposed of on-site. With continued proper disposal of the sludge, no further action at the Anderson STP is necessary at this time.
